

# MISTRAL+

*The multi material sorting machine for sorting centres and recycling facilities*

The Mistral+ is built on the experience gained from over 1 500 Mistral machines operating all around the world over the past 15 years.

The range is completely re-designed and remains highly versatile to meet the demands of any MRF or recycling facility.

### ✦ SIMPLICITY

- Machine access reinvented
- Direct view of the ejection process while in operation
- The most versatile Mistral
- Brand new user interface

### ✦ RELIABILITY

- Excellent reliability under stress
- New cooling concept based on a Vortex tube system
- Optimized electro valves
- IP65 standards

### ✦ PERFORMANCE

- Better ejection and detection performances
- Lighting power halved
- 35% more efficient electro valves
- A flexible range

## DATA SHEET

### MACHINE WIDTH

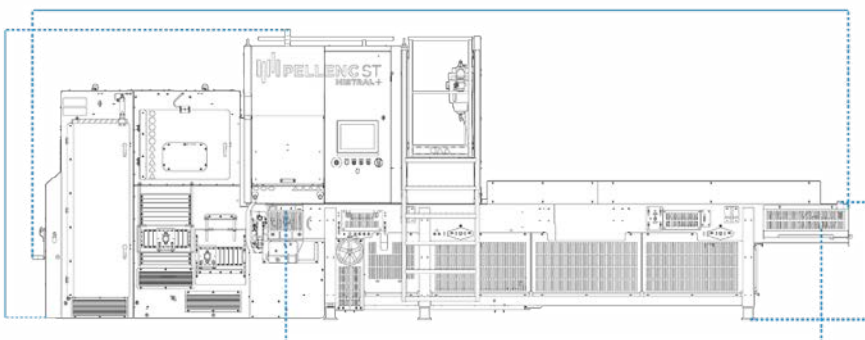

800mm	1 200mm	1 600mm	2 000mm	2 400mm	2 800mm
●	●	●	●	●	●

### CONFIGURATION

Features		Warranty	
Dual Eject	<input type="radio"/>	2-year warranty	●
Inductive sensor	<input type="radio"/>	Environment	
Multichannel	<input type="radio"/>	IP65 standards	●
Turbosorter	<input type="radio"/>	Vortex cooling system	●
Valve block		Min 80µm paint	●
Standard 25mm		Maintenance	
High Power 25mm	<input type="radio"/>	Upper platform	●
High Resolution 12.5mm	<input type="radio"/>	Retractable valve block	●
Super Power 12.5mm	<input type="radio"/>	Air treatment process	●
Peripherals		Software	
High speed conveyor	●	Smart safety management	●
Premium output box with safe access	●	Modbus and Profinet Interfaces	●

● Standard    ○ Option    — Not available
