

# QC+

QUALITY CONTROL MACHINE DEDICATED TO RDF MARKET

## High performances & upgradability

- + FLOW detection
- + CNS for multi sensor fusion

**FLOW**  
DETECTION

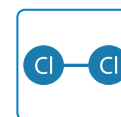

**Central Nervous System**

## Key indicators

PVC content rate

Organic chlorine  
content rate

Biogenic carbon  
content rate  
**NEW**

Heating value

Moisture content  
rate

## Report

Automatic

Customized

Data historization

## Service PACK

### 24/7 Customer Service

- A turnkey offer, including wear parts
- Local & personalised support
- Connected machines: Smart&Share

### Low maintenance costs

- Low wear parts replacement rate
- Vortex Cooling System

### Upgradability

- Future sensors available as upgrades
- New software available as upgrades

## Materials

RDF stream from: Commercial & Industrial, Construction & Demolition, Municipal Solid Waste and sorting center refuse.

## Easy, quick & safe maintenance

## Configurations

### Positioning

- + On conveyor
- + On gantry
- + Even on an inclined plane (max 15°)

### Widths (mm)

800-1200-2000-2800

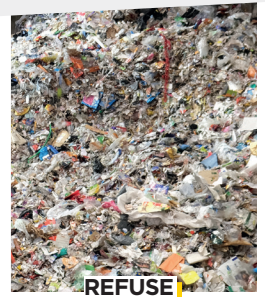

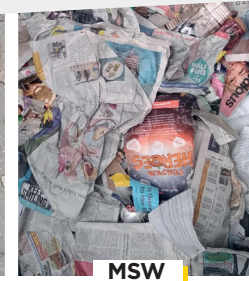

### Easy integration

Remote electrical cabinet (max 5m)

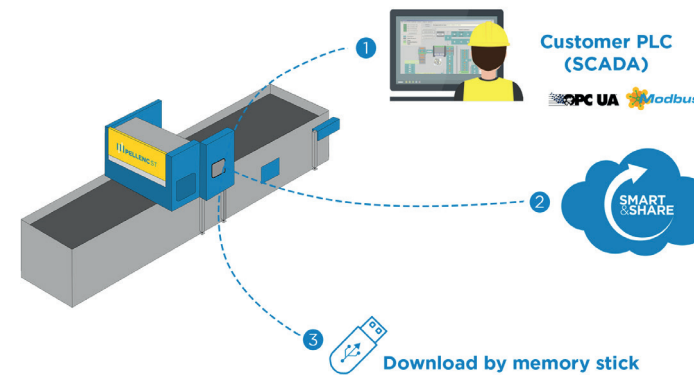

4 main applications

## Available Data

- + Communication Protocols : **Modbus & OPC UA** ready
- + **Smart&Share** Connectivity
- + Download by memory stick
