AEROLIGHT

- + Very high performance level
 - Paper/cardboard
 - LDPE/LLDPE
- + Energy consumption reduction
- + Ergonomics & user friendly

- + 50% more capacity
- + Even for 2D materials

- + Dedicated to 2D materials
- + Very low energy consumption
- + Robust
- + Simple integration

LOW OPERATIONAL COSTS

- Easy and secure machine access
- Automatic calibration
- Low replacement rate of wearing parts (electrovalves, lamps)
- Economical Vortex cooling system (no air conditioning)

24/7 CUSTOMER SERVICE

- A turnkey offer, including wear parts
- Local & personalised support
- Connected machines: Smart&Share
